**Subject:** Opposition to The Conveyance Act (House Bill 6998)

Please let the record show my opposition to all transfers of state conservation land without appropriate review of their ecological value and alternatives. Of particular concern are the proposals for Silver Sands (Section 3), the Centennial Watershed Forest (Section 8), and mining in Killingly/Plainfield and Canterbury/Brooklyn (Sections 15, 16).

The transfer of these properties would result not only in detrimental habitat loss for numerous birds, but in the eventual (further) degradation of our state's air and water quality.

For the sake of Connecticut's environmental health, please do not pass this bill.

Thank you.
